Important Notice Regarding Your Personal Information.

Dear [First Name]:

We are contacting you regarding a data security incident that has occurred at Oak River Insurance Company (the “Company”). This incident involved the release of certain personal information, including medical information and potentially your social security number or health insurance information. Please be assured that we have taken steps to address the incident, and that we are committed to fully protecting the information entrusted to us by policyholders, claimants, and others.

The Company discovered that a former employee, while employed with the Company, disclosed personal information about workers compensation claimants to certain individuals who were cooperating in an investigation of suppliers of medical services. The disclosures occurred between approximately October 2011 and March 2012. The information disclosed related to workers compensation claimants who received spinal surgery in Southern California between 2004 and 2011 or had urinalysis testing, diagnostics or medical services performed in California between 2006 and 2011.

It is important to note that we do not believe that access to your social security number or other identifying information was the goal of the disclosures, nor do we believe that the purpose of the disclosures was to compromise the security, confidentiality or integrity of the personal information. Further, as of the date of this letter, we are unaware of any actual identity theft resulting from these disclosures. Nevertheless, as a precautionary measure, we are notifying you so that you are aware of the incident and can take steps to further protect your personal information.

To help protect your identity, we are offering a complimentary one-year membership to Experian’s® ProtectMyID® Alert. This product helps detect possible misuse of your personal information and provides you with identity protection services. A description of the service and enrollment instructions are enclosed.

To further protect against the possibility of identity theft, the Company recommends that you place a fraud alert on your credit files. A fraud alert lets creditors know to contact you before opening new accounts. Just call any one of the three credit reporting agencies listed below.
